1. Basic data about the study programme
 - a) The name of the study programme and the number according to the register of study programmes.
Social work
External Form: Code: 106895 UIPŠ Code: 7761V00, Department: Social Work
<https://www.portalvs.sk/sk/morho/zobrazit/106895>
 - b) Degree of higher education and ISCED-F code of the degree of education.
Grade: third
ISCED-F code:
762
7 Health and social security 76 Social services
762 Social work and counselling
864 - Doctoral studies at universities - vocationally oriented study programmes
 - c) Place(s) of the study programme.
The seat of the university
St. Elizabeth University of Health and Social Work in Bratislava n.o.
Square 1. May No. 1, 810 00 Bratislava
 - d) The name and number of the field of study in which the degree programme will lead to a higher education qualification, or a combination of two fields of study in which the completion of the study programme will lead to a higher education qualification, ISCED-F codes of the field(s) of study.
Specialisation: social work and counselling ISCED-F code: 762
Study programme: social work
 - e) Type of study programme: academically oriented, professionally oriented; translation, combination translation (with indications of qualifications); teacher, combination teacher study programme (with indications of qualifications); artistic, engineering, doctoral, preparation for a regulated profession, joint study programme, interdisciplinary studies.
Professionally oriented
 - f) Academic degree awarded.
PhD. (in social work 7761)
 - g) Form of study.
External
 - h) In the case of joint study programmes, the cooperating higher education institutions and the definition of which study obligations are fulfilled by the student at which higher education institution (§ 54a of the Higher Education Act). **Not applicable**
 - i) The language or languages in which the study programme is conducted.
Slovak language

- j) Standard length of study expressed in academic years:
external form - 4 years
- k) Capacity of the study programme (planned number of students), actual number of applicants and number of students.

2. Graduate profile and learning objectives

The profile of the graduate of the Social Work study programme at the PhD level is in line with the mission and vision of the St. Elizabeth University of Health and Social Work in Bratislava and its mission. It is adapted in accordance with the document "Creation, application and evaluation of the internal quality system of the SEU" <https://www.vssvalzbety.sk/userfiles/Studijne%20oddelenie/bratislava/pre%C4%8Do%20u%20n%C3%A1s%20%C5%A1tudova%C5%A5/ProfilSP3.stPhD..pdf>
<https://www.vssvalzbety.sk/studijne-oddelenie/preco-studovat-u-nas/profil-absloventa>

- a) The university will describe the learning objectives of the program of study as the student's competencies at the time of completion of the program of study and the major learning outcomes.
The Social Work study programme is based on the interdisciplinary application of knowledge from the social sciences, and background knowledge from the following disciplines: philosophical, ethical, sociological, anthropological, so that the graduate study was equipped with the necessary theoretical and professional knowledge for the best possible mastery of conceptual, analytical, managerial, evaluative and research activities in social work in Slovakia as well as in countries of the developing world. The study programme is directed towards the standard preparation of management and research social Workers. It also offers the opportunity to implement the latest knowledge in social work, mission and development in practice. As a field of study, social work responds to, accepts and embraces the educational standards of social work, developed and approved by the Ministry of Labour, Social Affairs and Family of the Slovak Republic in cooperation with the Association of Social Work Educators of the Slovak Republic.

The graduate of the doctoral study of full-time and external form of the Social Work, Social Work, according to the recommendation of the supervisor may have the following subjects, defining the core topics of the core knowledge of the Social Work: Introduction to Doctoral Studies, Scientific Knowledge, Theory of Science and Theory of Social Work, Selected Methods of Social Work, Methodology of Social Work (Qualitative Methods), as part of the study part of the study, Social work methodology (quantitative methods), Research methods and data processing, Management of social organisations, European social policy, human rights and social work.

The Social Work study programme in the 3rd cycle of studies also includes specific units that are aimed at completing the profile of the graduate, such as Social Collisions of the Contemporary Family, Socio-Economic Problems of Families in contemporary society, Current trends in development cooperation, Social work with migrants and migration policy, Education and training of youth from low stimulating environment, Theory of community development, Social and health care for persons with disabilities, Social work and quality of life of the elderly, Applied social pathology in social work, Charity and missionary work, humanitarian aid as a part of social work, Applied Ethics in Social Work and Marginalized Social Groups as a Subject of Social Work. Within the scientific part, the student will complete the course Methodology of social work (qualitative and quantitative methods) and Research methods and data processing and under the guidance of the supervisor will conduct empirical research in the chosen issues, participates in the solution of a grant scientific research task at the Department of Social Work or other departments of the St. Elizabeth University of Applied Sciences, engages in publishing activities and accepts active participation in scientific conferences and seminars.

Graduate of the Social Work degree programme:

- can carry out research on a current open scientific problem in the field of study Social Work and related fields,
- knows the principles of scientific work, research methodology and scientific formulation of a research problem,
- is proficient in the use of modern information technologies,
- knows the methods of statistical analysis,
- knows the legal aspects of social research as well as the ethical and social aspects of scientific work,

- knows how to present results in publication and lecture form,
- Promotes the development of the field of study Social Work and its contribution to practice,
- after conducting the research, he/she is able to propose further directions in research in the above-mentioned area on the basis of his/her findings in order to support the development of the knowledge base of Social Work as a scientific discipline.

Graduates of the Social Work program are based on the values of Christian humanism and the latest scientific knowledge in the field. He/she is able to assess and diagnose according to modern approaches and methods the situation and problems of the needy, establish, manage and coordinate social and charitable projects, acquire skills in the creation of grant projects, be prepared for adequate adaptation to the local cultural and social environment. The graduate is guided to systematically and effectively provide assistance to people in need and at-risk groups in the areas of either community development, educational activities, as well as basic medical assistance. He/she has good knowledge and skills to be able to independently lead a team of co-workers and carry out activities related to

planning and coordinating the assistance provided. Able to think critically and analyse possible situations operationally. Can independently design, conduct, lead or coordinate scientific research activities in social issues. The graduate will become familiar with current theories and methods used in social work.

General characteristics of the graduate's professional profile:

knowledge of the background of social work (social, economic, political, anthropological, historical), setting up social projects, grant writing,

Application of intercultural integration and ethical principles to practice, identification of social pathology in local conditions, ability to apply scientific methods of research and development.

In the scientific field, the graduate will acquire:

principles of scientific work,
Scientific problem formulation, linking
scientific research with practice,
ethical, social and legal aspects of scientific work,
presentation of scientific research results,
the ability to ensure the development of the field of study and its contribution to practice.

A doctoral graduate can independently provide and organize:

- setting up social projects,
- planning, organising and monitoring social projects,
- Actions related to social prevention in Slovakia and in the local conditions of developing country projects,
- education of children and young people from socially disadvantaged backgrounds,
- research activities in the field of social work,
- evaluation of social projects.

Graduates are also able to analyse social situations, make diagnoses, take measures to address issues of social deprivation and inequality, and actively participate in social work research.

The aim of the programme is to educate senior scholars, professionals and creative practitioners for social work in socially disadvantaged, marginalised or excluded settings of target groups and communities in Slovakia, as well as in the context of local cultures in the developing world.

- b) The university indicates the occupations for which the graduate is prepared at the time of graduation and the potential of the study programme in terms of graduate employment.
Social Worker, Mission and Charity Worker, Development Worker
Act No. 219/2014 Coll., the Act on Social Work and on Conditions for the Performance of Certain Professional Activities in the Field of Social Affairs and Family and on Amendments and Additions to Certain Acts - § 5 (1) a)
<https://www.vssvalzbety.sk/o-nas/uplatnenie-absolventov>
<https://www.vssvalzbety.sk/o-nas/kvalita-vzdelavania>
- c) Relevant external stakeholders who have provided a statement or a favourable opinion on the compliance of the acquired qualification with the sector-specific requirements for the exercise of the profession. **Not applicable**

3. Applicability

- a) Assessment of the employability of graduates of the study programme.
<https://uplatnenie.sk/?degree=V%C5%A0&vs=724000000&field=7761V00&year=2019>
<https://www.vssvalzbety.sk/o-nas/uplatnenie-absolventov>

Graduates of the Social Work doctoral degree programme will find employment as managers and researchers in social work, missionary and development cooperation institutions at home and around the world. Graduates will also find employment as managers in state administration institutions (Ministry of Foreign and European Affairs of the Slovak Republic, Ministry of Labour, Social Affairs and Family of the Slovak Republic), in local government, in migration office facilities, in international institutions, as well as lecturers in educational organisations oriented towards humanitarian and social development. Graduates of this study programme will also find employment as managers in the social economy, in non-governmental and religious organisations, in management and control institutions, as well as in international development projects. They will find particular employment in the management centres of community development institutions. They can also be used in setting up their own civic associations, social, charitable and development organisations.

The study programme is aimed at acquiring knowledge based on the current state of knowledge and especially the student's own contribution to it, which is the result of scientific research and independent creative activity in the field of social work. The study programme focuses mainly on theoretical knowledge and its practical application in social work with a focus on problems related to living and working conditions such as poverty, unemployment, etc., quality of life and prevention of socio-pathological phenomena, etc. The aim is to educate top scientific and professional staff and their application in the development of state social policy, acquisition of new theoretical knowledge, planning of activities with impact on administration, legislation with possible impact on the quality of life.

Graduates will be professionally prepared in the field of expert activities, population analysis and causes of its changes, scientific research activities, etc. Their employment is possible in positions such as :

social services manager and project manager of social services and social assistance,
researcher in the field of social work,

head of special institutions and institutions carrying out activities related to social assistance and social security,
social counsellor, therapist, specialist for complex social work with the family, as a human rights defender, etc.

Specific application in selected entities in the field of labour, social affairs and family :

- local and national authorities, including the ministries concerned,
- research institutes focusing on research problems in the field of social issues,
- institutions providing social counselling, social rehabilitation and social therapy,
- universities, other higher education institutions and other educational institutions
- social services,
- foundations, civic associations, non-investment funds, voluntary organisations and other NGOs,
- facilities to help asylum seekers, etc.
- acting in the field of mediation and consultancy for the labour market,
- in penitentiary and post-penitentiary work, in restorative justice, in probation and mediation, i n social work with convicted persons.

Graduates of doctoral studies in the field of social work can work in accordance with the new Act No. 219/2014

On social work and on conditions for the performance of certain professional activities in the field of social affairs and family and on amendment and supplementation of certain acts. A social worker is presumed to have acted as a guarantor or lecturer of a specialisation training programme or a guarantor of a training programme if he/she has obtained a third-level higher education degree in the field to which the specialisation training programme or training programme relates

- b) Alternatively, list successful graduates of the study programme.
- c) Employers' evaluation of the quality of the study programme (feedback).

The evaluation is carried out in accordance with the document "Creation, application and evaluation of the internal quality system of SEU", as well as the Study Regulations and the Rector's Regulations, available at:

<https://www.vssvalzbety.sk/o-nas/vnutorne-predpisy-smernice>

<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/english/2STUDYREGULATIONS.pdf>

<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/english/15Directiveonddoctoralstudies.pdf>

4. Structure and content of the study programme

The person responsible for the study programme submits a proposal for the development and modification of the study programme to the Rector of the St. Elizabeth University of Applied Sciences. The exact procedure for the creation and approval of a new study programme or the modification of a current study programme or its termination is regulated by the document "Creation, application and evaluation of the internal quality system of the SEU" approved by the Rector of the SEU St. Elizabeth. It is governed, in addition to the legislation in force, by the criteria of the Slovak Accreditation Agency for Higher Education.

<https://www.vssvalzbety.sk/o-nas/vnutorne-predpisy-smernice>

- a) *The university will describe the rules for the formation of curricula in the curriculum.*

Doctoral education in social work is the third level of higher education and is intensive and applied. The content is based on the scientific and methodological concept of social sciences and social work. It is provided in accordance with the recommendations of the International Association of Schools of Social Work (IASSW), the International Federation of Social Workers (IFSW), the European Union guidelines and in accordance with the professional and value orientation of the St. Elisabeth University of Social Work in Bratislava.

The aim of the education of the third level of the social work department, the study programme Social Work is for graduates to acquire such professional knowledge, practical skills and competences that they are able to improve the social functioning of clients, to be able to implement community planning, to actively influence social policy and to be capable of managerial activities. Graduates are proficient in the scientific methods of research in social work to the extent that they are able to implement research-based practice and reflect critically on it. During their studies, graduates will acquire:

Expert knowledge

- Knowledge of current trends in social work theory and methods, as well as the understanding of them necessary for systemic, comprehensive and holistic social work with social work clients, especially empowering, enabling and improving their quality of life;
- knowledge of current trends, forms, methods and strategies of social work;
- Knowledge of current trends in charity, humanitarian, development and social welfare work and counselling;
- Knowledge of social research methodology and understanding of its specifics in social work; Practical

skills

- Capacity for interdisciplinary and multidisciplinary collaboration, team management, human resources, social, charitable, development and mission organizations;
- Design, implement and coordinate research in the social field, actively acquire new knowledge and information, integrate and use it in application for the development of the field of social work, think critically and creatively;

Competencies

- Competence in team leadership, managing social, charitable, development and mission institutions;
- The ability to formulate issues and tasks, methodologies and outcomes of social work tasks, to communicate professional views to the professional public and to present social, missionary and charitable work to the general public;
- the ability to find and present own solutions to problems in research and project work. Link:

<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/KompetencieVedomostiZrunostien-US.pdf>

- b) *The university will draw up recommended study plans for each pathway in the course of study.*

Students can customize their study plan by taking elective courses, provided they meet the other requirements of their studies.

Higher education studies in the field of Social Work are organised and registered with the support of a credit system that is fully compatible with the European Credit Transfer and Accumulation System (ECTS). All the

activities that the student carries out in the course of his/her studies, i.e. active participation in lectures, seminars and exercises, self-study, creative activity within the course, etc., are evaluated by credits. The number of credits for a course corresponds to the effort and time that a student must expend to successfully complete the course and obtain the relevant learning outcomes. The number of credits that a student must obtain during the course of his/her studies for compulsory subjects, for compulsory elective subjects and, where applicable, for optional subjects, is specified in the study plan.

The credit system allows:

- spread the study load evenly over the entire period of study,
- choose your individual pace of study,
- choose from a range of compulsory and optional study subjects, thus pursuing their own interests and profiling themselves,
- complete a mobility programme and earn credits at another university, possibly abroad.

Individual credits for completed courses are cumulative. The acquisition of the specified number of credits in the prescribed composition is a condition for the proper completion of studies in the relevant study programme. The completion of the study courses is regulated in time and space and takes place during the semesters of the academic year. The timetable of the academic year is the organisational instrument of the academic year.

The credit system of doctoral studies in the study programme Social Work is as follows:

PEDAGOGICAL ACTIVITY	
Teaching at university (24 hours/year)	10 credits
leadership bc. and dipl. theses and SVOČ (max. 24 credits/study)	8 credits
preparation of referee reports (max. 12 credits/study)	3 credits
co-authorship of teaching texts	10 credits

STUDY ACTIVITY	
completion of compulsory lectures	4 credits
individual study of scientific literature	5 credits/year
study-research stay abroad at a higher education institution -3 months (full-time studies only)	15 credits
rigorous examination in the field (taken during PhD studies)	10 credits

SCIENTIFIC ACTIVITY	
active participation in the conference / seminar	10 credits
passive participation in the conference/workshop	5 credits
participation in the organisation of the conference	10 credits
Participation in a scientific grant project	20 credits

PUBLISHING ACTIVITY	
scientific or professional publication <u>in a foreign</u> carentenan /unclassified journal (<i>min. 1 publication during the study</i>)	30/25 credits
scientific or professional publication <u>in a domestic</u> peer-reviewed/non-peer-reviewed journal	20/10 credits
publication in foreign proceedings	20 credits
publication in a domestic proceedings	15 credits
domestic/foreign citations	10/15 credits

foreign language exam	10 credits
dissertation examination	20 credits
defence of the final dissertation	30 credits

Social work, doctoral studies (PhD.), full-time and external form, 1st year

I.year - winter semester				
Compulsory subjects:	Name of subject	Teacher	Credits	Hourly subsidy
	Introduction to Doctoral Studies	prof. JUDr. Vojtech Tkáč, PhD.	5	10
	Scientific knowledge, theory of science and theory of social work	prof. PhDr. Jozef Matulník, PhD.	5	10
*Mandatory Optional Subjects:				
	Current social problems v family	Prof. ThDr. PhDr. PaedDr. Pavol Tománek, PhD	5	8
	Unemployment, poverty and debt as a phenomenon of our times	prof. MUDr. Jozef Mikloško, PhD.	5	8
		TOTAL:	15	28
*Mandatory electives: the student chooses one of the above two subjects				

I.year - summer semester				
Compulsory subjects:	Name of subject	Teacher	Credits	Hourly subsidy
	Methodology soc. of work (qualitative methods)	Doc. PhDr. Katarína Bundzelová, PhD.	5	10
	Selected methods of social work	Doc. PhDr. Nataša Bujdová, PhD.	5	10

	Latest trends in education social workers	doc. PhDr. Monika Miklošková, PhD.	5	8
	A multidisciplinary approach to solving social problems clients	Doc. PhDr. Nataša Bujdová, PhD.	5	8
		TOTAL	15	28

By completing the lectures from the courses included in the winter and summer semesters for the 1st year of study, the student will receive 15 credits each. The remaining credits to complete the required 60 credits for the academic year will be obtained in coordination with the supervisor from the following activities:

Pedagogical activity	Credits
university tuition (24 hours/year)	10
leadership bc. and dipl. theses and SVOČ (max. 24 credits/study)	8
preparation of referee reports (max. 12 credits/study)	3
co-authorship of teaching texts	10

Study activity	Credits
completion of compulsory lectures	5
individual study of scientific literature	5 credits / year
foreign study - research stay at a higher education institution - 3 months (full-time study only)	15
rigorous examination in the field (taken during PhD studies)	10

Scientific activity	Credits
active participation in the conference / seminar	10
passive participation in the conference/workshop	5
participation in the organisation of the conference	10
participation in the solution of a scientific grant project	20

Publication activity	Credits
scientific or professional publication in a foreign carentented/non-carented journal (min. 1 publication during the study)	30/25 credits
scientific or professional publication in a domestic peer-reviewed/non-peer-reviewed journal	20/10 credits
publication in foreign proceedings	20
publication in a domestic proceedings	15
domestic/foreign citations	10/15 credits

Social work, doctoral studies (PhD.), full-time and external form, 2nd year

	II.year - winter semester			
Compulsory subjects:	Name of subject	Teacher	Credits	Hourly subsidy
	Methodology Social of Social Work (quantitative methods)	Prof. ThDr. PhDr. PaedDr. Pavol Tománek, PhD	5	10
	Research methods and processing data	prof. PhDr. Jozef Matulník, PhD.	5	10
*Mandatory optional Subjects:				
	Social-health care for persons with disabled disability	doc. PhDr. Katarína Bundzelová, PhD.	5	8
	Applied social pathology in social work	prof. MUDr. Jozef Šuvada, PhD.	5	8
		TOTAL	15	28
*Mandatory electives: the student chooses one of the above 2 subjects				

	II.year - summer semester			
Compulsory subjects:	Name of subject	Teacher	Credits	Hourly subsidy
	Research ethics in social work	prof. MUDr. Mgr. Eva Grey, PhD.	5	10
	European social policy, human Rights and Social Work	prof. JUDr. Vojtech Tkáč, CSc.	5	10
*Mandatory optional Subjects:				
	Charitable and missionary work , humanitarian aid as part of social work	prof. PhDr. Ing. Ladislav Bučko, PhD. prof. MUDr. Jozef Šuvada, PhD.	5	8
	Marginalized Groups a communities as target groups of social work	doc. Mgr. Jaroslava Poloňová, PhD.	5	8
		TOTAL:	15	28
*Mandatory electives: the student chooses one of the above two subjects				

By completing the lectures from the courses included in the winter and summer semesters for the 2nd year of study, the student receives a total of 10 credits. In coordination with the supervisor, the student will obtain the remaining number of credits to complete the required 60 credits for the academic year from the following activities:

Pedagogical activity	Credits
university tuition (24 hours/year)	10
leadership bc. and dipl. theses and SVOČ (max. 24 credits/study)	8
preparation of referee reports (max. 12 credits/study)	3
co-authorship of teaching texts	10

Study activity	Credits
completion of compulsory lectures	5
individual study of scientific literature	5 credits / year
foreign study - research stay at a higher education institution - 3 months (full-time study only)	15
rigorous examination in the field (taken during PhD studies)	10

Scientific activity	Credits
active participation in the conference / seminar	10
passive participation in the conference/workshop	5
participation in the organisation of the conference	10
participation in the solution of a scientific grant project	20

Publication activity	Credits
scientific or professional publication in a foreign carentented/non-carented journal (min. 1 publication during the study)	30/25 credits
scientific or professional publication in a domestic peer-reviewed/non-peer-reviewed journal	20/10 credits
publication in foreign proceedings	20
publication in a domestic proceedings	15
domestic/foreign citations	10/15 credits

Social work, doctoral studies (PhD.), full-time form, 3rd year

The curriculum of the 3rd year does not include teaching subjects. A full-time student in the 3rd year of study is obliged to take a foreign language examination, a dissertation examination and a defence of the final dissertation. The required minimum of 60 credits in coordination with the supervisor will be obtained by the student from the following activities:

Pedagogical activity	Credits
university tuition (24 hours/year)	10
leadership bc. and dipl. theses and SVOČ (max. 24 credits/study)	8
preparation of referee reports (max. 12 credits/study)	3
co-authorship of teaching texts	10

Study activity	Credits
completion of compulsory lectures	5
individual study of scientific literature	5 credits / year
foreign study - research stay at a higher education institution - 3 months (full-time study only)	15
rigorous examination in the field (taken during PhD studies)	10

Scientific activity	Credits
active participation in the conference / seminar	10
passive participation in the conference/workshop	5
participation in the organisation of the conference	10
participation in the solution of a scientific grant project	20

Publication activity	Credits
scientific or professional publication <u>in a foreign</u> carentented/non-carentented journal (min. 1 publication during the study)	30/25 credits
scientific or professional publication <u>in a domestic</u> peer-reviewed/non-peer-reviewed journal	20/10 credits
publication in foreign proceedings	20
publication in a domestic proceedings	15
domestic/foreign citations	10/15 credits

Final examinations	Credits
foreign language exam	10
dissertation examination	20
defence of the final dissertation	30

Social work, doctoral studies (PhD.), external form, 3rd year

The curriculum of the 3rd year does not include teaching subjects. An external student in the 3rd year of study is obliged to take a foreign language exam and a dissertation exam. Additional credits may be earned by the student in coordination with the instructor from the following activities:

Pedagogical activity	Credits
university tuition (24 hours/year)	10
leadership bc. and dipl. theses and SVOČ (max. 24 credits/study)	8
preparation of referee reports (max. 12 credits/study)	3
co-authorship of teaching texts	10

Study activity	Credits
completion of compulsory lectures	5
individual study of scientific literature	5 credits / year
foreign study - research stay at a higher education institution - 3 months (full-time study only)	15
rigorous examination in the field (taken during PhD studies)	10

Scientific activity	Credits
active participation in the conference / seminar	10
passive participation in the conference/workshop	5
participation in the organisation of the conference	10
participation in the solution of a scientific grant project	20

Publication activity	Credits
scientific or professional publication <u>in a foreign</u> carentented/non-carentented journal (min. 1 publication during the study)	30/25 credits
scientific or professional publication <u>in a domestic</u> peer-reviewed/non-peer-reviewed journal	20/10 credits
publication in foreign proceedings	20
publication in a domestic proceedings	15
domestic/foreign citations	10/15 credits

Final examinations	Credits
foreign language exam	10
dissertation examination	20

Social work, doctoral studies (PhD.), external form, 4th year

The curriculum of the 4th year does not include teaching subjects. The student of external study will obtain the required number of at least 30 credits in coordination with the supervisor from the following activities and is obliged to carry out the defence of the final dissertation:

Pedagogical activity	Credits
university tuition (24 hours/year)	10
leadership bc. and dipl. theses and SVOČ (max. 24 credits/study)	8
preparation of referee reports (max. 12 credits/study)	3
co-authorship of teaching texts	10

Study activity	Credits
completion of compulsory lectures	5
individual study of scientific literature	5 credits / year
foreign study - research stay at a higher education institution - 3 months (full-time study only)	15
rigorous examination in the field (taken during PhD studies)	10

Scientific activity	Credits
active participation in the conference / seminar	10
passive participation in the conference/workshop	5
participation in the organisation of the conference	10
participation in the solution of a scientific grant project	20

Publication activity	Credits
scientific or professional publication <u>in a foreign</u> carentented/non-carentented journal (min. 1 publication during the study)	30/25 credits
scientific or professional publication <u>in a domestic</u> peer-reviewed/non-peer-reviewed journal	20/10 credits
publication in foreign proceedings	20
publication in a domestic proceedings	15
domestic/foreign citations	10/15 credits

Final examinations	Credits
defence of the final dissertation	30

- d) The university shall indicate the number of credits, the achievement of which is a condition for the proper completion of studies and other conditions that the student must fulfil in the course of study of the study programme and for its proper completion, including the conditions of state examinations, the rules for repeating studies and the rules for extending, interrupting studies.

A minimum of 180 ECTS credits, including credits for the final examination, is required for proper completion of the study.

- e) The university shall indicate for each curriculum the requirements for completion of the individual parts of the study programme and the student's progression in the study programme in the structure:
- the number of credits for compulsory subjects required for the proper completion of the study/completion of part of the study,

Number of credits for compulsory subjects required for the proper completion of studies: 40

- the number of credits for compulsory elective courses required for the proper completion of studies/completion of part of studies,
- the number of credits for elective courses required for the proper completion of studies/completion of part of studies,
- the number of credits required to complete the study/completion of the part of the study for the common core and for the relevant endorsement, if it is a teaching combination study programme or a translation combination study programme,
- number of credits for the final thesis and the thesis defence required for the proper completion of the study: **30 credits**

- f) The university will describe the rules for verifying learning outcomes and student assessment and the options for corrective action against these assessments.

The rules for the verification of learning outcomes and the evaluation of students and the possibilities of corrective procedures against this evaluation are set out in the Study Regulations and Examination Regulations of the SEU which are available on the school's website (<https://www.vssvalzbety.sk/o-nas/vnutorne-predpisy-smernice>) and are in accordance with the document "Creation, application and evaluation of the internal quality system of the SEU"

<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/english/xCreationapplicationandevaluationoftheinternalqualitysystemofhighereducation1.pdf>

<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/english/15Directiveondoctoralstudies.pdf>

- g) Conditions for the recognition of studies or part of studies.

The student's progress in the study programme, the conditions for completing the individual parts of the programme and the recognition of studies are governed by the document "Creation, application and evaluation of the internal quality system of the SEU" as well as the Study Regulations and the Rector's Regulation concerning the recognition and conditions for the recognition of studies:

<https://www.vssvalzbety.sk/o-nas/vnutorne-predpisy-smernice>

<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/english/15Directiveondoctoralstudies.pdf>

- h) The university will list the thesis topics of the degree programme (or a link to the list).

The list of thesis topics in Social Work can be found on the website:

<https://www.vssvalzbety.sk/veda/doktorandske-studium/prijimacie-konanie>

- i) The university will describe or refer to:

- rules for assigning, processing, opposing, defending and evaluating final theses in the study programme,
- opportunities and procedures for participation in student mobility,
- the rules for observing academic ethics and drawing consequences,
- procedures applicable to students with special needs,
- student complaints and appeals procedures.

In order to properly complete the doctoral studies, the student must fulfil the following: successfully pass the admission procedure, successfully pass the language examination /optional language - English, German, Russian, French/. Successfully pass the dissertation examination, which consists of:

- defending the dissertation examination,
- project work
- and an oral examination in three subjects:
 - Theory and methodology of science,
 - Theory and methods of social work,
 - Research in social work.

Another condition is the successful completion of the dissertation defence, with the condition that the student has fulfilled the prescribed number of credits for scientific and pedagogical activity in each individual academic year, which will be confirmed by his/her approved supervisor on the basis of the submitted documents.

To properly complete the doctoral study programme in Social Work, 180 credits must be obtained, including the credit evaluation of his/her dissertation, if it has been accepted for defence.

The standard workload of a doctoral student during the academic year is considered to be the performance of activities corresponding to 50-60 credits. In full-time and part-time doctoral studies, a doctoral student must obtain a minimum of 50 credits per academic year for his/her progression from each year of study, taking into account the recommended credit structure.

Failure to comply with the conditions referred to in the preceding paragraph may be grounds for the supervisor to submit a proposal to the Rector in the annual evaluation for the doctoral student's exclusion from studies.

The doctoral student earns credits for the following activities during his/her studies:

- a) completion of the study part :

the doctoral student must take the compulsory courses specified in his/her individual study plan. For successful completion of the dissertation examination, the doctoral candidate receives 20 credits,

- b) independent creative activity in the field of science:

publications (at least 3), completion of a defined stage in own research work, presentation at a domestic professional or scientific event, presentation at a foreign or international professional or scientific event, professional or scientific internship at

home or abroad, translation of foreign professional or scientific articles and their publication, active participation in the organisation of domestic and international professional or scientific seminars and conferences, and other scientific activities.

c) dissertation development:

if the dissertation has been accepted for defence, the doctoral student receives 30 credits.

If a doctoral student has completed part of his/her studies at a workplace other than his/her own (e.g. abroad), the credits earned at this workplace are counted in full if he/she has been seconded to this workplace in the framework of the fulfilment of his/her study plan.

The entire doctoral study includes 180 credits, of which:

- teaching and study activities min. 60 credits
- scientific activity min. 60 credits
- dissertation examination 20 credits
- submitted and accepted doctoral dissertation 30 credits
- language exam 10 credits

The aim of the final doctoral thesis is primarily to demonstrate the student's ability to work independently with the literature, to creatively solve and process in writing the chosen subject problem and to carry out relevant empirical research that should bring new, innovative, or transformative knowledge in the field of research. The student must maintain the principles of scholarly citation and referencing of literature in the dissertation. The dissertation supervisor will prepare a written evaluation of the dissertation. The supervisors will also prepare a written evaluation.

By the final thesis and its defence the student will demonstrate the ability to:

- to work independently scientifically in the field of social work,
- independently acquire theoretical knowledge and creatively solve problems in the field of social activity,
- independently solve tasks within the framework of social activity, its management, research, educational process and ethics,
- independently, creatively and comprehensively solve and explain the chosen problem, which the student will analyze and investigate in the thesis,
- to form an overview of theoretical and application problems in the field of social work,
- to apply methods and techniques of empirical cognition with regard to the chosen topic of the thesis.

The thesis has a theoretical and an empirical part, which are closely related to each other, or the whole thesis is written in IMRAD format.

The doctoral student submits the completed thesis within the prescribed time limit. The Rector, having received the proposal of the chair of the thesis committee, appoints the thesis defence committee and its chair, including the opponents of the thesis. The Rector shall appoint the opponents on the basis of a proposal from the chair of the thesis committee, which may be based on a proposal from the supervisor. The opponents shall be selected from among experts in the field or specialisation of the doctoral degree, and may not be members of staff of the same institute, department or institute.

At least one opponent is from a different department than the SEU. At least one opponent must be a holder of the scientific and pedagogical title of professor, or be a holder of the scientific rank of DrSc., or be a researcher with the qualification degree I. Other referees may be eminent experts with the academic degree of PhD.

The chair of the defense committee shall propose to the Rector the time and place of the dissertation defense no later than 60 days after receiving the dissertation defense materials. On the basis of the proposal, the Rector shall determine the time and place of the dissertation defence. The relevant department of the Rector's Office of the SEU shall arrange for the publication of the announcement of the defence of the doctoral thesis. Anyone who is interested in the subject under examination and in the defence of the dissertation may submit comments to the chair of the defence committee at least one week before the defence, or may make their comments orally at the defence. At the defence of the dissertation, the doctoral candidate shall take a position on such statements or remarks. The dissertation defence itself consists of three parts:

1. the doctoral student presents the problem and the current level of knowledge, methodology, results, comparisons and recommendations of the research,
2. statement of the opponents on the presented dissertation, presentation of questions and comments on the thesis and on the given scientific issue,
3. the doctoral student's comments on the questions posed and the scientific discussion under the guidance of the chair of the committee.

In other situations, the procedure is in accordance with the document "Creation, application and evaluation of the internal quality system of the SEU", as well as the Study Regulations and the Rector's Regulations.

	practical suggestions for eliminating human rights violations such as a basic social policy tool.		
VV4	Competency Focus: The student creates, designs projects, scientific studies that involve problem identification, analysis, design and implementation of large-scale solutions in social work linked to the preservation of human rights.	Bulk = lecture + self-study	Colloquial exam (max. 25 points), % pass 61 % - 15 points

Brief outline of the course:

- Political science and political theory. Basic concepts. Politics and international organizations.
 - Principles and functions of European social policy, European political and legal culture.
 - The relationship between policy and social work. The World Social Order and the European Social Order
 - Definitions of political science (the essence of political science, concepts of political system, political categories, categorization of political science disciplines, the concept of "social", the concept of "social policy" and their relationship to social work. Political system.
 - Globalisation, Europeanisation, social, economic and ecological cohesion, inclusion and exclusion, marginalisation
 - Models of political science, social policy and social work. World and European social and economic models. Human rights and politics
 - Policy actors and social work actors (state, employers, local government, civic associations, political parties, family, citizen, professionalization of social work). Policy objects (population, individuals, groups). Social and legal state (nature, development, models).
 - Basic policy instruments (programmes, plans, partnership and collective bargaining, financing
 - Human rights, social rights and economic rights
 - The acquired knowledge has a multidisciplinary scope (the course of doctoral studies, the basics of scientific work, the daily performance of the job position of social worker/social work assistant, etc.)
 - Competences include the application and implementation of the acquired knowledge in the current and future decision-making work of the doctoral graduate
 - Skills are applied in the introduction to the production of scientific papers, working with relevant information in systems and subsystems
- social work, in their search and orientation in legal systems. The acquired skills will be applied in counselling, in all interactions with social work clients, in relations with relevant institutions, in the creation of administrative tasks.

8. Spatial, material and technical provision of the study programme and support

The spatial, material and technical provision of the study programme and its support are in accordance with the standards of resources for the provision of study and student support, which are specified in the document "Creation, application and evaluation of the internal quality system of the SEU" :

<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/english/xCreationapplicationandevaluationoftheinternalqualitysystemofhighereducation1.pdf>

- a) List and characteristics of the study programme classrooms and their technical equipment with assignment to the learning outcomes and subject matter (laboratories, project and art studios, studios, workshops, interpreter's booths, clinics, seminars, science and technology parks, technology incubators, school enterprises, practice centres, training schools, teaching and training facilities, sports halls, swimming pools, sports grounds).

St. Elizabeth University of Health and Social Work in Bratislava has three teaching workplaces at its central workplace in Bratislava, namely at Nam. 1. May No.1, on Nám. Slobody No.3 and Polianky Pod brehmi 6205-4/A.

On the Square. 1.may is located in the basement Aula with a capacity of 120 seats, which has a diverse use. In addition to the lecture room, it also serves as a representative room for graduations and conferences. It is equipped with a PC, a data projector, a flipchart and sound equipment for sounding ceremonial occasions.

On the ground, first and second floors there are a total of 6 lecture rooms , 4 with a capacity of 80 seats and 2 with a capacity of 30 seats. Each of them is equipped with PC, data projector and overhead projector.

The lecture rooms are mainly used for the study field of social work external form of study, but in parallel they are also used by the study fields of public health, nursing according to the prepared schedule.

In addition, there is a library and rooms for teachers in the building. Accessibility is ensured by a lifting platform Wimec v65 (Nám. 1. mája).

On the Square. Slobody No.3 there are three lecture rooms with a capacity of 30 seats, which serve mainly for the study field of social work full-time form of study. These rooms are also used for the subject Social Psychological Training. There is also 1 demonstration room for Nursing. In each room there is a PC, data projector, flipchart and free internet access for all students.

The building at Polianky has five lecture rooms with a capacity of 100 seats on the ground floor and a script room for students. Upstairs there are lecture rooms with a capacity of 20, 40 and 35 seats and laboratories for medical disciplines. Each room has a Pc, data projector and sound equipment. An interactive whiteboard has been installed in the 80-seater classroom.

The lecture rooms are primarily used for the Social Work study programme, the Psychology study programme, and the health disciplines, but in parallel, according to the lecture schedule, their capacity is also used by the Social Work programme.

Classrooms

Specialized teaching is carried out in the classrooms of the university in Bratislava. The school has a fully equipped multimedia room, which includes an interactive digital whiteboard with superior sound equipment suitable especially for playing multimedia files. The school has a network licence of SPSS (statistical software for social phenomena) for 25 computers that can be used in parallel, as well as Atlas - TI for qualitative research. Another specialised classroom is equipped with 15 computers containing 30 pieces of standard software - Windows XP, Microsoft Office office suite with programs (Microsoft Word, Microsoft Excel, Microsoft Outlook, Microsoft Power Point) - as well as communication means, in particular means based on the use of computer networks, multimedia means.

Material and technical support necessary for the teaching of the study programme.

The classrooms are set up with chairs with a tilting desk designed for writing. Ceramic blackboards are installed in the classrooms, and there is an interactive whiteboard in room 102. Laptop computers and projection equipment are available for lecturing, as well as a data projector, overhead projector and sound equipment as required by the teachers.

The University also uses the BI Training and Development Centre for seminars, further education and SPV. Mother Teresa in Dolná Krupa. There are three training rooms, each with a capacity of 60 persons with the following technical equipment: TV, PC, data projector, flipchart board, internet access. For multi-day trainings there are also 6 accommodation rooms with a capacity of 20 places.

- b) Characteristics of information provision of the study programme (access to study literature according to course information sheets), access to information databases and other information resources, information technologies, etc.).

The Institute of Social Work, which implements the study programme Social Work, has its headquarters in the building at Nám. 1 May 1 in Bratislava with a library with journals and book titles in the field of social work, charity and development work and a study room with computers with internet access. The library has book titles and scripts in Slovak, Czech and English. It is connected to the Internet and is equipped with information networks. There is a lending library of monographs, teaching texts and electronic documents, as well as qualifying theses (diploma, dissertation, rigor, habilitation). A multimedia-equipped study room with computers and a data projector is available for loan. Library and information services are focused on:

- borrowing by absenteeism,
- borrowing by attendance,
- interlibrary loan,
- consultancy, in the use of information technology,
- editorial, services with ISBN provision in the publication of publications within the school-wide publishing house,
- reprographic services for library users,
- sale of professional literature authored by university lecturers of SEU,
- entries in central registers.

A number of teaching texts for the subjects of the study programme come directly from the publishing activity of the university itself. Up-to-date information about the library can be obtained from the library's homepage, which is continuously updated at www.vssvalzbety.sk (<https://www.vssvalzbety.sk/kniznica>).

- c) Characteristics and scope of distance learning applied in the curriculum with assignment to courses. Approaches, manuals of e-learning portals. Procedures for transition from full-time to distance learning.

Distance education is provided by an internal online learning system called ELIX, which was prepared only for the needs of the university. The system enables real-time lecturing with active feedback as well as providing feedback and opinions of students through surveys. The system also allows for individual testing in the form of a test, where a different test can be prepared for each student at a specific time. Link: <https://elix.seuniversity.eu>

At the same time, the university has the CISCO Webex electronic system at its disposal. At Nám. 1. may 1 is a room with complete multimedia equipment for conference transmission.

- d) Partners of the university in the provision of educational activities of the study programme and characteristics of their participation.

Partners for students' professional practice:

Residential facility for homeless families Cífer - Jarná St.

Lujza de Marillac Shelter, Bratislava

Ošetrovňa sv. Alžbety, low-threshold day centre for homeless people, Bratislava Terrain service (streetwork) bl. Rozálie Rendl, Bratislava

Shelter for battered women Jozefínium,

Dolná Krupá Diagnostic centre for youth,

Záhorská Ves Shelter Mea Culpa, Bratislava

OZ Vagus, Domec project, Račianska 78, Bratislava

OZ Ichtyš, Štefana Kráľíka 1, 841 08 Bratislava - Devínska Nová

Ves OZ Prima, Hviezdoslavovo nám. 17, Bratislava

OZ STOPA, Bratislava

OZ Jarovnice, Roma settlement

Jarovnice OZ Two-coloured world,

Bratislava

Society of Friends of Children from Children's Homes Smile as a Gift, Ševčenkova 21,

Bratislava Slovak Catholic Charity, Kapitulská 18, Bratislava

Central Office of Labour, Social Affairs and Family, SR

Missionary Centre of the Immaculate Heart of Mary, Lomnička

Nocľáhareň Depaul Slovensko, n.o.

- e) Characteristics on social, sporting, cultural, spiritual and social opportunities.
The Institute of Social Work cooperates with the Salesian Don Bosco Pastoral Centre in Petržalka, Mamateyova Street. Students can use the sports area of this centre for sports activities.
- f) Opportunities and conditions for students to participate in mobility and internships (with contact details), guidelines for applying, rules for recognition of this learning.
Residential placements to carry out missionary and charitable practices:
Missionary Centre of the Immaculate Heart of Mary, Lomnička, Slovakia
Caritas of Omsk, Russian Federation
Orphanage House of Family, Cambodia
Orphanage of Divine Mercy, Serednei, Ukraine
Orphanage of St. Josephine Bakhita of Sudan,
Sudan Health Initiative Association, Uganda
St. Charles de Foucauld, Dbauh Refugee Camp, Lebanon
Parish of St. Anne of the Ukrainian Greek Catholic Church, Melitopol, Zaporozhye region
<https://www.vssvalzbety.sk/projekty/humanitarne-projekty/projekty/ukrajina/misia>

9. **Required abilities and prerequisites of the candidate for the study programme**
The admission procedure for the study programme Social Work is governed by the standards of the document "Creation, application and evaluation of the internal quality system of the SEU"
<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/english/xCreationapplicationandevaluationoftheinternalqualitysystemofhighereducation1.pdf>

Required competences and prerequisites for admission.

A. Admission requirements for third cycle (PhD.) applicants

1. University studies of the second degree (Mgr.) in social work or a related field completed by a state examination.

2. Completed application form for university studies, which includes as attachments:

- a certified copy of the diploma and a certified copy of the state examination certificate,
- proof of passing examinations and credits for the master's studies,
- applicants who have studied at a foreign university - Decision on the recognition of the equivalence of the educational document (photocopy of the decision must be officially certified) and at the same time provide an uncertified copy of the foreign educational document,
- a CV (signed), - the applicant for the external form of study shall provide details of employment on page 2 of the application form.

Pursuant to Section 58(6) of the Higher Education Act, the dean decides on admission to study a study programme implemented by the faculty. The Rector decides on admission to study a study programme run by a higher education institution. <https://www.vssvalzbety.sk/veda/doktorandske-studium/prijimacie-konanie>

- a) Admission procedures.
The University admits students on the basis of statutory conditions (as defined in the Higher Education Act).
<https://www.vssvalzbety.sk/userfiles/INFOPORTAL/english/15Directiveondoktoralstudies.pdf>

- b) Recent admissions results.
The results are available at the Department of Doctoral Studies, St. Elizabeth University, Nám. 1. mája, Bratislava. <https://www.vssvalzbety.sk/veda/doktorandske-studium/kontakty>

10. **Feedback on the quality of education provided**
